How We Protect Your Car

We precision-cut Avery Dennison PPF to your exact car model, then apply it in our climate-controlled studio. Every edge sealed. Every panel armoured. Invisible.

01

Deep Clean

Surface decontaminated, clay-barred, imperfection-free.

02

Precision Cut

Film computer-cut to fit your exact vehicle perfectly.

03

Expert Apply

Technician applies in our dust-free climate bay.

04

Edge Seal

Every edge heat-sealed. No lifting, ever.

Why Your Car Looks So Good After PPF

- ✓ Self-heals swirl marks with heat
- ✓ Invisible — factory colour unchanged
- ✓ Blocks stone chips & road debris
- ✓ UV blocks paint fade & oxidation
- ✓ Repels bird acid, tar & insects
- ✓ Hydrophobic — rain beads away
- ✓ Preserves resale value for years
- ✓ Safe on all paint types & EVs
