What We Apply to Your Car

Icon Rocklear is not a coating — it's a permanent molecular bond engineered in Canada.

It chemically fuses with your car's clear coat and cannot be washed away. Ever.

01

Surface Perfection

Machine-polish & clay-bar to a flawless base. Zero imperfections.

02

Molecular Bonding

Rocklear applied in our climate bay. Chemically fuses with paint.

03

Permanent Cure

Cures and bonds permanently. Cannot degrade or wash off.

Why Your Car Looks Extraordinary

- ✓ Permanent bond — applied once, lasts forever
- ✓ Extreme UV — no fade in Indian summers
- ✓ Industrial chemical & acid protection
- ✓ Intensifies paint colour depth visibly
- ✓ 75× harder than standard ceramic coating
- ✓ Hydrophobic — water sheets off instantly
- ✓ Safe for supercar, luxury & daily vehicles
- ✓ Manufacturer certificate with every install

Rocklear vs Ceramic — The Honest Difference

	Ceramic Coating	Icon Rocklear Gold
Lifespan	3–5 Years	Permanent
Bond	Surface Layer	Molecular Bond
Reapplication	Required	Never — Ever
Hardness	Standard	75× Stronger

"Pay once. Protect forever. Rocklear is the last coating your car will ever need."
